Sub: 'Ama Police' - Community Policing Project of Odisha Police –
Guidelines for Successful implementation

Sir/Madam,

I am directed to say that Government after careful consideration have
been pleased to approve the Community Policing Project of Odisha Police under
the nomenclature “Ama Police” with the following Guidelines for its successful
implementation.

2. Community policing revolves round the principle of pro-active policing
through people friendly policing practices, community participation and problem
solving leading to crime prevention and maintenance of order. Community
policing allows the law enforcement to get back to the principles upon which it
was founded, to integrate itself into the fabric of the community so that the people
and the police collaborate even before a serious problem arises. It is a
philosophy based on the concept that Police Officers and private citizen work
together in a creative way to help solve contemporary community problems
related to crime, fear of crime, disorder and neighbourhood decay. It fosters to
develop a new relationship with law abiding people in the community, allowing
them a greater say in setting local policing priorities, and involving them in efforts
to improve overall quality of life in their neighbourhood. The Beat Police Officer is
in face-to-face daily contact with people in the area so that the officer owns the
Beat areas, develops rapport with the people and earns their trust. Here the
police serve as a catalyst and the people accept their share of responsibility for solving local problems related to crime, disorder and security.

3. The essence of Community Policing is to minimize the gap between policemen and citizens to such an extent that the policemen become an integrated part of the community they serve. In other words the individual policeman should know each member of the community and he should, in turn, be known by them. That is to say that the anonymity between them is replaced with harmony and trust.

4. So the basic unit of Community Policing should be geographically, and demographically, compact enough to enable a foot-patrolman to know all and everyone within a reasonable span of time and in turn be himself known in the community. The policing and security needs of a compact geographical area can be easily identified and attended to by employing local resources. Such knowledge will also have its impact on local anti-social behavior, apart from keeping the outsiders at bay.

5. "Ama Police" Project is the Community Policing Programme to be introduced by the Odisha Police. It will be a three tier structure, 'Ama Police Beat' at the bottom, 'Ama Police Samiti' at the middle and District Advisory Committee at the apex.

6. The project aims to achieve the following objectives.

(a) Prevention of Crimes.
(b) Furthering co-operation and mutual understanding between Police and the Community.
(c) Furthering Security-related mutual co-operation among Citizenry.

The scheme will be introduced in a phased manner in all the police stations of the State. SP/DCP may identify one or two Police Stations in his/her jurisdiction as pilot and gradually scale up the project.
7. **'Ama Police Beat':**

Each Police Station should be divided into several contiguous Beats basing on the population, homogeneity or other common characteristics. Each 'Ama Police Beat' will be under the charge of an Assistant Sub-Inspector or a Head Constable / Constable. The Beat officers will be selected strictly on criteria of **personality, integrity, voluntary attitude, clean service record, good conduct, non-addictive habits** etc. The selection may not necessarily be from among the personnel of the concerned police station. The DCP/SP may select Beat officers from among the manpower under his/her command. The Beat Officers, IIC/OIC and the SDPO/ACP should undergo suitable **orientation training** before their engagement under 'Ama Police Project'.

8. Within three months of taking charge, every Beat Officer should personally know at least one member of every household in his beat by **house visits**. Every road, lane and by-lane in the beat should be well known to the Beat Officer. The Beat Officer should know not only the houses but also all other establishments in the beat area. The Beat Officer should also keep a rough map marking the major junctions, buildings etc. of the area. He should also keep a diary containing the phone numbers and address of all important establishments and persons. A copy of the map and the diary should be kept in the Police Station. The details of such public contact received etc. may be entered in the **Beat Diary** by the beat officer, who may get it countersigned by the OIC/IIC.
