From DGP's Desk

I convey my best wishes and warm greetings to all the members of Odisha Police on the occasion of 83rd Odisha Police Formation Day. On this occasion I also remember with respect and gratitude the contributions of our former leaders and members of Odisha Police in its long and glorious journey from the year 1936. Along with the increase in its size over last eight decades, our duties, responsibilities and challenges have gone up exponentially during this period. I can say with satisfaction and pride that Odisha Police has been able to overcome these challenges successfully.

But, new challenges emerge as we get better off the old ones. We should adapt ourselves to the fast changing world, equip ourselves with new skills and develop capacity to make use of technology in all spheres, particularly for the service delivery to the people. In this direction we are developing user friendly mobile phone applications for the benefit of the general public. Other than technology, I have been emphasizing on "team work" and "transparency" in our functioning.

In the recently held Senior Police Officers' Conference, several important matters including the issue of enhancing the capacity of police stations were deliberated. Ultimately, we are judged by our efficiency at the level of the police station. We will develop one police station in each district as a "model police station" in terms of infrastructure, manpower and behavioral aspects. We hope that these police stations will become role model for others especially in respect of delivery of service to the people.

Rajendra H

(Dr Rajendra Prasad Sharma)

- 19 Sr Stenographers promoted to the rank of Personal Assistants.

A picture is worth a thousand words. The other day a picture posted by SP, Sambalpur in the group whatsapp struck a note with me. I thought it worth sharing in the limited space that I've the privilege to pen my thoughts. The picture is that of a traffic constable helping a differently abled woman cross the road. It was candid and was taken by a journalist friend who shared it with SP.

From the Editor...

In the recently concluded senior Police Officers' Conference I was deliberating on attitudinal changes required for people friendly policing and gave the example of Kerala traffic cops often seen helping elderly people and children cross the busy traffic junctions. It is a common sight on busy Kerala roads. And I contrasted it with my own experience while shooting a similar song that was to be edited later to fit into the lyrics. After several cuts and personal briefing to the police persons who were selected to act the sequence, the crew had to work overtime to get a five second edited version. The reason; our men escorted the elderly person on the frame as if he was on the wrong side of law.

I am sure that the traffic cop of Sambalpur has never been trained on stuff like attitudinal change but he is a man with ample empathy. He understands the difference between an iron grip and a helping hand. Is he not a role model?
