

**PRESS NOTE**

**Date.17.09.2021**

Fire (Dial-101) is now integrated with ERSS (Dial-112).

Citizens of Odisha can dial only a single number 112 for all their emergency needs related to fire service.

This single-number (Dial-112) service will be beneficial for all, especially women and elderly persons. This number will work for the safety, dignity and welfare of all by providing faster, prompter and immediate response during emergency and distress.

With the introduction of Dial-112, the existing emergency numbers like Police-100 and Fire-101 have been completely integrated into the unified toll free number 112.

People can also download 112 India Mobile App and register themselves as 112 Volunteers to help others in their locality during any distress.

We urge to the people of Odisha please dial 112 in case of Emergency needs related to Fire rather dialling 101.
